7th Grade Registration Request Form

Spring Lake Middle School 2010-2011

Spring Lake Middle School uses a trimester system divided into core classes and elective classes. All five core classes, as well as the computer class, are required for all 7th grade students. Requesting elective classes for next year is offered to the students and their parents. These requests are only that – **requests**. Due to master schedule limitations, not all requests may fit into an individual student’s schedule, and thus, the school may replace a request with a class that does fit. The purpose of this form is to give you and your student the ability to prioritize the order with which we select those elective classes as we try to fit them into each and every middle school student’s schedule.
