ROK is also the original installer and support provider for our current cameras and storage solution and have provided good service to the district. It was also noted that the pricing came in well under what was expected.

The replacement of the camera system storage solution is consistent with the 2017-2026 10-year Technology Obsolescence Plan.

- Embed core academic content
- Make the experience fun and engaging, yet purposeful

There were 51 submissions by teachers in K-12 grades. There are 81 course sessions offered in three windows during June, July and August with 704 seats filled. Courses will run for ten school days in each window (30 total hours) and have two session options per day: 8:30 to 11:30 a.m. or 12:00 Noon to 3:00 p.m. Snacks will be provided for all students by SLPS food service, and transportation will be available with approximately 90 student riders anticipated.
